All you need to know is the conversion factor, and you are all set.Convert Inches to CentimetersInches is a unit of length in the English system, along with other units like feet and miles. Centimeters is a unit of length in the metric system. Suppose you measure your pencil and discover that it is four inches long. However, perhaps your teacher wanted your answer in centimeters, and you do not have a metric ruler nearby. This is not a problem at all. To convert from inches to centimeters, take your measurement in inches, multiply it by 2.54, and you will find the length in centimeters. So, your pencil would be four times 2.54, or 10.16 centimeters.Change From Centimeters to InchesYou can do the reverse conversion just as easily when going from centimeters to inches. This time, instead of multiplying by 2.54, you will divide by 2.54. Perhaps your teacher asks to measure the length of your textbook, and you find that it is 27 centimeters long. If you need to find the answer in inches, take 27 and divide it by 2.54, which gives you a result of approximately 10.63 inches long.Convert From Centimeters to FeetA foot is a longer unit of measurement in the English system. There are 12 inches in one foot. To make a conversion from centimeters to feet, you will again divide, but this time you will divide by 30.48 _ 12 times 2.54. For example, if you measured something and determined that it was 210 centimeters long, divide by 30.48 to find that it is approximately 6.94 feet in length.Help From the InternetGranted, it can be difficult trying to memorize the various conversion factors that you might need to know. Thankfully, a couple of clicks of your mouse can get an answer for you quickly. Type the conversion you need into the search bar, for example, how many meters are in three miles? Several web pages with calculators will pop up and do the math for you so that you do not need to worry about filing conversion factors into your mind.Other Helpful Conversions to KnowIf you are a runner, it may be helpful to know how many miles are in a kilometer as many races are measured in the Metric system. One kilometer equals approximately 0.62 miles. So, if you are running a five-kilometer (5K) race, you will cover approximately 3.11 miles. Another helpful conversion is pounds to kilograms. One pound is the equivalent of about 0.45 kilograms. When having to share your weight, it may sound better to say 81.65 kilograms as opposed to 180 pounds. The reason behind this is that a lot of people don't know about the secret menu of Subway. And due to this, their secret menu items are widely underrated. So, I will tell you about all the items that are present on the secret menu of Subway. Let's check that out. 1) The Pizza Sub- This Pizza Sub is basically a pizza that happens to be a submarine sandwich. Filled with pepperoni, tomato sauce and cheese, this sub is a wonderful treat for all the sandwich lovers. You can also add sausage or meat to this sub to make it tastier. 2) The Meat Fest- Just imagine that all the varieties of meat present in a single submarine sandwich. Sounds exciting! Right? Well, this is possible if you try the Meat Fest from Subway's secret menu. This sub will be a perfect delight for you if you want to kill your hunger. 3) Chicken Parmesan- A lot of roasted chicken, parmesan cheese and marinara sauce along with spinach, olives and black pepper is something that a Subway fan dreams of. In 2010, the Chicken Parmesan was a regular food item at Subway, but it got removed from the regular menu. That's why you can find it on their secret menu. The strong flavors of this sub are enough to fill up your appetite. 4) The Old Cut Sub- A very few people know that when Subway was started, they used to cut their bread like loaves in the old times. But the people who remember it still love their sandwiches cut in the old style. But if an employee is not familiar with the old cut style, then it is very unlikely that you'll get to have one. 5) More Please Sub- The one thing that people forget when they go to a Subway store is that there is no limit to the items that you put in your sandwich. No one will stop you if you ask for more. You can create your own monster sub as this option is available in the secret Subway menu. 6) The Winged Style Sub- Many people must be thinking that this sub must be having wings and to be honest, I can't deny this. This sub actually has small meat wings hanging around the edges of a sandwich. This gives some extra meat to all the meat lovers on the edges to eat and it makes the sub more visually appealing as well. This sub is something that you want to eat from the secret Subway menu. 7) The Carnivore- If you are a lover of subs having meat, then this carnivore sub will be your top pick. Just ask the Subway employee to add bacon, steak, pepperoni, onion, melted cheese, jalapeños and pepper in your sub to cheer yourself up. This sub is a little spicy in taste, but one thing that I can assure you is that this sub will be something that you'll never forget of.
